Welcome

Ny-Hedeby is a scout and senior center located at Stevninghus in Southern Jutland, halfway between Aabenraa and Kruså. Camps have been held in the area since the corps camp in 1969, and the scout center has existed since 1974. The campsites are only 100 m from Hostrup Lake, where you can have a nice swim on a hot summer day.

A center camp at Ny-Hedeby is very varied. There are good and well-planned activities under the supervision of the team, good service, an excellent camp area in the scenic surroundings of Hostrup Lake. Ny-Hedeby is easy to get to by car, bus or train. At Ny-Hedeby there is the opportunity to meet scouts from both Denmark and abroad.

Center Camp makes it easier for you to go to camp. The team helps plan and carry out activities. This applies to both the day's regular activities, but also social activities such as campfires, races, excursions, etc. The leaders are expected to participate in the activities together with the scouts and the team.

The collaboration between leaders and team is therefore very important, and every evening we have a meeting talking about how the day went and what to do the following day.
